LOOKING FOR A SCAPEGOAT!

Victims of Violent Street Crime

The Young, the Old and the Defenceless

HIS ROYAL HIGHNESS, Prince Charles, the Prince of Wales, during a visit to a young offenders' centre in London last month, echoed many peoples' concern when he drew attention to one of the most disturbing trends in violent street crime, the attacks by young people on old folk.

The Prince's reference to 'inner-city areas' was the nearest his speech writers would allow him to go in naming those responsible for the majority of these attacks but his diplomacy in these matters is a little late. An increasing number of British people are only too well aware that coloured immigrants are mainly responsible for violent street crime. Statistics disclosed last year, revealed that, in London, 70% of attackers were black and 70% of their victims were white and when these figures are broken down even further they show that 80% of these attackers were young blacks while 90% of the victims were elderly whites!

Victim of street violence, 21 month old Nicola Meynhart.

SLASHED

Attacks on old people however, is not the only rising statistic in violent crime. February this year saw the conviction of three black youths for an attack on a two month-old baby. They had grabbed little Steven Twin by the throat and threatened to strangle him unless the twelve year old girl looking after him handed over her money. Two weeks earlier a black youth slashed the face of 21 month-old Nicola Meynhart, ripped her clothing stabbed her mother in the thigh and finally punched the child in the eye. This was the second attack within four months suffered by the mother, Mrs Sally

Meynhart. Last October, on the same road, black youths had threatened to slash Nicola's face if Mrs Meynhart did not hand over her money and jewellery.

WOMEN

Women in general, whether they are young, old or middle-aged are easy prey for the muggers, and in many cases the attacks have had motives other than robbery. In Handsworth Birmingham only last week a 34 year-old woman had her hand-bag grabbed as she walked home after an evening visiting friends. When she struggled to hold on to her property, the rastafarian attacker drew a knife and forced her into an alley where he raped her. In Stoke a week earlier a 17 year-old girl was kidnapped outside a night club by three black youths who raped her in the back of their car as they drove along the M6. They dumped the naked girl in the centre of Birmingham.

AT RISK

The list is endless and the message is clear. The young, the old and the defenceless are at risk in Britain today as never before. Attacks, the nature of which would never have been dreamed of twenty years ago, are now commonplace on the streets of our inner-cities. No one is suggesting that white people are only the victims and never the culprits in violent crime. Every country has its bad apples and Britain is no exception, but while we are quite capable of tending to, punishing and rehabilitating our own criminals, it doesn't mean that we should have to cope with all the muggers, rapists and undesirables from the Third World as well.

Make no mistake, violent street crime is a legacy of large scale coloured immigration. It is the classic example that multi-racialism is not enriching our country as we are constantly being told. Multi-racialism is destroying it!

WHILE OUR STREETS continue to revert to the law of the jungle and our old folk become imprisoned in their homes the police have acknowledged their failure and are now only interested in appeasing the Blacks and looking for a scapegoat.

The National Front has never equivocated on the issue of law and order. A future National Front government would not only punish the offenders, it would deal with the root cause of much of our crime wave.

We believe the collapse of law and order is a direct consequence of Britain's multi-racial society.

EMBARRASSING

Our open pronouncement of our beliefs is acutely embarrassing to Britain's senior police officers who are trying to hold down the lid on a saucepan whose contents are rapidly coming to the boil. They are attempting to placate an alien population which is fundamentally incapable of fitting into our society.

Consequently the police are determined to clamp down on the National Front - we embarrass them and we annoy them by telling them what, in their hearts, they already know; no

amount of "soft-pedalling" "ethnic awareness training" or "community policing" will solve Britain's crime problem. Its solution will only come with a resurgence of national pride and the repatriation of the alien horde.

On this page we detail not only the ways in which law and order is breaking down, but also the ways in which the police are oppressing the National Front and its members in an attempt to suppress the truth about the collapse of our society and to prevent the NF from offering its own radical solution.

Dawn Raids by Police

ON TUESDAY 28th February at 8.00 a.m. about 20 plain clothes detectives raided NF members' homes. At Joe Pearce's house they woke up not only Joe but also his wife and baby daughter and made them all get up prior to searching the entire house. At Ian Anderson's the police claimed that "the door was open" and he and the other people who share the flat were woken by the entry of police officers into their bedrooms.

To carry out these raids with a semblance of legality, the police had obtained a warrant after

application to a Magistrate using powers under the Obscene Publications Act. After the raids they issued a press statement announcing this but failing to explain why this particular Act had been used.

Although officers of the Obscene Publications Squad were present, the raids were ordered by the Community Relations Dept. of Scotland Yard.

These raids are just one of the latest attempts to suppress National Front publications and halt the spread of the truth about Britain's multiracial disaster.

NF Chairman Arrested on 'Catch-All' Charge

THE Chairman of the National Front, Mr Andrew Brons, is currently facing a charge of "Threatening or Abusive Words, Language or Behaviour Likely to Cause a Breach of the Peace". This arose out of his selling NF papers in central Leeds.

National Front Chairman Andrew Brons.

He was approached and arrested by one "P.C. Raj" who is now the main prosecution witness. When Paul Vessey asked about this charge which he also faces, he was told by the visibly unstable P.C. Raj, that their "mere presence" on a shopping precinct was sufficient.

They appeared in Court on Monday 27th February but the case was adjourned until Monday 30th April at Leeds Court. They have both pleaded "Not Guilty" and will be fighting the case as hard as possible, not only for themselves but in order to protect other NF paper sellers who could be put in danger by this monstrous "catch-all" charge!

CHELSEA PAPER SALES - NF Hit Back!

A MEASURE of the extent to which the authorities are running scared of the resurgence of the National Front is the increasing harassment of our street activists. Nowhere has this been greater than outside Chelsea football ground.

National Front support is strong among Chelsea supporters and sales of National Front News and other NF papers are always good. Infuriated by this support the police have attempted to drive off the NF paper sellers. In late February Michael Turner

and John Wright both of Lambeth Branch were arrested and charged with obstruction.

Since then our paper sellers have been told to move on or face arrest. Despite this sales continue and eager fans snap up the publications.

FILMING

In early March the National Front started to hit back, not only did our paper sellers turn up at Chelsea but so did our cameramen and video team. The

films they took clearly showed that our paper sellers were not committing any offence.

Such factual evidence has now become necessary because recent experience has proved that so desperate have the police become to secure convictions they are now prepared to fabricate evidence against our street activists.

Our paper sellers are determined to continue selling at Chelsea. The National Front must make sure it can give them the back-up they deserve.

Cheers from the Fly-Boys

CHANCELLOR LAWSON'S first budget speech was exactly what one would have expected from a former journalist who had spent the majority of his early life in the company of the financial manipulators and fly-boys of the Stock Exchange. It had the city jumping for joy.

On the London stock markets shares soared and massive amounts of money were made without a stroke of work being done as the Chancellor unveiled measures abolishing investment income surcharge and reducing the Stamp Duty on shares. Huge sighs of relief could be heard from every quarter as the Chancellor evaded introducing a tax on banker's profits.

NOTHING FOR BRITAIN

The budget did nothing for Britain. It did nothing for British Industry and nothing to tackle the growing problem of unemployment. His proposal to subject imports to VAT more quickly could benefit British made goods although this was not its primary purpose. The move will give the Government a windfall of £1.2 billion which, for the time being, will offset the revenue lost from the City.

Of course it's nonsense to hope that any budget can affect Britain's predicament. It's much too late for any measures that could be dreamt up by this Government or its establishment opposition. Britain is in dire financial straits. From Government spending this year of £140,000,000,000 a massive £16,500,000,000 will go on interest repayments on money borrowed by this Government and previous Governments. That's almost 12% of their whole expenditure, more than is spent on the Health Service, more than is spent on pensions, on education, on housing and on industry support.

This year again the books don't balance and the Treasury will have to borrow a further £8,000,000,000 to get by, meaning that 1985 will see a further increase in the amount of the debt interest repayments and further cuts in the essential services such as the NHS etc.

HANDS ARE TIED

Drastic action is needed if Britain is to keep control of her own affairs and not become a banker's satellite such as countries like Mexico and Brazil. The hands of any British Government are tied forever unless they can rid themselves of the spiralling repayments of debt interest. National Front News believes that a National Front Government should not be bound by agreements made by previous Governments with regard to interest on loans. While repayment of the original amount of money borrowed should be honoured demands for interest payments should not be met.

The furore and cries of anguish at this action from the City would be deafening, but this could be reduced to a whimper by nationalising the banks and closing down the Stock Exchange.

Reds Picket NF Student

A CAMPAIGN has been launched by Reds at the Polytechnic of North London to expel Pat Harrington because of his NF membership. The campaign has included protest meetings and mass pickets of his lectures.

A number of leaflets have been issued, all by people who are so brave they do not even have the guts to put an address on their smear leaflets as is required by law. One of these leaflets even details Pat's college timetable showing the time and room number of his lectures in Greek Philosophy, 19th Century philosophy, political phil-

Patrick Harrington.

osophy, etc.

While Pat is not unduly concerned by the antics of this Red rent-a-mob, the college authorities as usual have panicked and have asked Pat if he would mind "staying away for a short while to de-fuse the situation".

Pat is determined to complete his course and the National Front will lend help in any way necessary.

Protest Over the Murder of Albert Mariner

ON Monday 27th February over 40 National Front activists of the Instant Response Groups arrived at Wood Green Civic Centre where a meeting of Haringey Council was being held. Their intention was to protest over the murder of Albert Mariner by a rioting mob which included the then Mayor of Haringey, Brian Bullard who still sits as a member of Haringey Council.

About eight NF members managed to gain access to the public gallery before a Special Branch police 'shadow' was able to alert the local police and prevent other members from entering.

This action by the police in preventing NF members, many of them from Haringey, from entering the public gallery was completely illegal. Previous meetings of Haringey Council have regularly been the subject of heckling by groups of Red demonstrators without any police interference.

Those NF members who were prevented from entering immediately set up a torchlight picket with Union Jack flags and placards while leaflets were handed to passers-by.

ADJOURNMENT

Inside the Civic Centre Ian Anderson shouted from the public gallery his demand that other members of the National Front who were Haringey ratepayers be admitted to the half empty gallery. This caused some confusion among Council mem-

Pensioner and NF member Albert Mariner. Murdered by a rioting mob.

bers and the Mayoress eventually announced her intention of allowing in more people to the public gallery.

Within only a few moments this was seen to be a lie. Other members of the National Front inside the gallery started to protest and as the noise increased Adrian Wiltshire hurled a batch of leaflets into the main hall where the Councillors were seated.

As chaos ensued the Mayoress was forced to adjourn the Council meeting for about 20 minutes while all the NF members were ejected from the gallery by the police.

Substantial local press publicity was won by this activity for the Albert Mariner campaign. The authorities may be determined to hush up the murder of Albert Mariner - we are determined that Albert will not be forgotten and that his death will be avenged.

National Front members held a torchlight picket outside Wood Green Civic Centre protesting over the murder of Albert Mariner.

Front Supports Call for Blockade

STOP IMPORTING FOREIGN COAL!

ARTHUR SCARGILL, the President of the National Union of Miners has recently claimed that "substantial" imports of Polish coal have been brought into the UK in an effort to smash the 3 month-old overtime ban by 180,000 miners.

The NUM President has also claimed that "certain forces within Britain" have held a meeting in Gdansk with the Poles with a view to importing some 18 million tons of coal into Britain.

Furthermore the NUM know about the details of this meeting and have disclosed that the Polish Government have appointed a

— and their campaign against job losses and pit closures — but would also completely decimate the British coal industry.

Britain's miners, naturally upset by the Government importing Polish coal. The National Front supports the N.U.M. in calling for a blockade.

trade officer to link up with the Polish Embassy in London to liaise with a British coal company.

Mr Scargill has also accused the Tory government — who have full knowledge of the Gdansk meetings — of attempting to wreck the "spectacularly successful actions of the miners." He has also denounced attempts to import coal from South Africa, the United States and Australia.

JOB LOSSES

And Arthur Scargill is right in his claims. For such foreign imports would not only kill-off the miners justifiable pay claims

However in a great show of Union solidarity — against the mad Tory foreign imports policy — six other unions have pledged to help blockade the imported coal by halting all movements through ports and by road and rail.

The National Front supports the NUM and the other unions involved in the blockade of imported coal. Foreign imports spell the death for much of British industry. And if the Tories won't act to save British industry, then the unions must do it themselves!

BAN FOREIGN IMPORTS!

Enoch spells it out!

ONE-THIRD OF Birmingham, one-third of inner London and more than one-third of Leicester would soon be made up of coloured immigrants predicted Enoch Powell, the former MP for Wolverhampton South-West, in a speech in Nottingham.

BIRTH-RATE

Mr. Powell saw the growth in the birth-rate of coloured immigrants already here in Britain as far more of a problem than continued immigration. He accused Westminster of ignoring the danger signals, "No Government and no political party", except the National Front, "has been willing to publicly face the people with these facts".

Mr. Powell called upon the British people to "avert and reverse the accumulation of the materials of future conflict", which in plain English means if you don't want continual Black riots STOP IMMIGRATION AND START REPATRIATION NOW!

We want OUT!

A GALLUP POLL undertaken to discuss the problems of the Common Market shows that 48% of the British public believe that the Common Market is a bad thing.

49% of those against would like to see Britain leave the European Community or at least becoming more independent from her partners.

The poll shows a marked decline in the popularity of the EEC. Less than a year ago more people thought that Britain's membership was a good thing rather than a bad thing, but now the position has reversed. Today less than 25% believe Britain has benefited from Europe.

NF News DIARY

Dr. Norman A. Goodman, MP for Greenock and Port Glasgow was upset by the lead story of February's *NF News* concerning the plight of the Scott Lithgow shipbuilders yard in his constituency. He writes,

"The views expressed with regard to the technological achievements at Scott Lithgow are simply an attempt by a rather unpleasant fringe organisation to cash in on the misery caused by the economic policies of the present Government.

I would recommend to you that you rely in future on sources of information on industrial matters which are not connected with the offensive and racist views of an objectionable minority of people in this country."

... Presumably he means *Labour Weekly*, *Marxism Today* and *Socialist Worker*.

QUOTES OF THE MONTH

Concerning the assassination attempt on the former IRA Belfast Commander Gerry Adams.

"I deeply regret that this assassination attempt was unsuccessful" — Mr. George Seawright, a member of the Democratic Unionist Party in the Northern Ireland Assembly.

"Mr. Adams is now a casualty of his own war in which he is a fanatical believer". Lord Fitt, House of Lords, Westminster.

A READER from Sussex has informed me of RADIO ENOCH — THE VOICE OF WHITE BRITAIN. Apparently it can be heard fortnightly on Sundays at 11am on SW 7.33 MGH. I hope you have better luck finding it than I did.

ON FEBRUARY 7th, First Tuesday on ITV showed British prisoners like walking skeletons in Japanese war camps, actually they were so weak they had difficulty in walking.

One prisoner said the Japanese crucified some of his fellow prisoners, driving nails through their hands and so forth. Many prisoners contracted tropical diseases and even now are trying to obtain compensation without success.

Now we are going to harbour Japanese here! My God we have short memories. We should tell Nissan exactly what to do with their industry!

ONE LAST word on that ill-fated Panorama programme concerning self-abuse in the Tory Party. I see from the credits that one of the executive producers was none other than former Communist Party candidate, Searchlight founder, and Anti-Nazi League henchman Gerry Gable.

Mr. Gable's claim to fame is that he was caught trying to steal documents from the house of British Historian David Irving while posing as an official of the Gas Board.

Front's Commitment to Rural Areas

MORE THAN 1,000 village shops have closed down and more than 11,000 owners of retail businesses declared bankrupt in Britain's rural areas during 1983 declares a report by the Development Commission's Council for Small Industries in Rural Areas.

The report estimates that within the next 5 years more than 6,000 villages will lose their local shop ending the near self-sufficiency of these communities and forcing people back into the towns.

The National Front pledges in its manifesto:-

"It is in the long term interest of Britain that our rural com-

THE PRIVILEGED CLASS

IN A SOCIETY already riddled with class division, a society where the well-off get better off and the worse-off get next to nothing, another new class of people has emerged. An exclusive class, pampered and looked after by the authorities, a class of people that are put above the law and given special rights and facilities. This new class is the privileged class and to join their set you've got to have a black or brown face.

From listening to the media, the British public are led to believe that coloured immigrants are poor, down-trodden and the victims of continual racial attacks. However the facts paint a different picture.

SPECIAL GRANTS

From April 1983 to January 1984, 656 grant applications were received by the Greater London Council from ethnic minority groups. Of these only 4 applications were turned down and grants well in excess of £2 million were awarded. Let the figures speak for themselves:-

Community Health Group for Ethnic Minorities £40,000.

UK Caribbean Chamber of Commerce £86,000.

Asian Women's Forum £24,170.

Haringey Black Womens' Centre £41,852.

West Indian Under 5's Action Group £70,416.

Peckham Black Womens' Group £35,180.

Migrant Services Unit £42,690.

Unity of Afro-Caribbean People £8,014.

Southall Black Sisters £25,338.

Hackney Black Womens' Association £13,442.

Black Amalgamated Self Help Co-op £21,327.

Rastafarian Advisory Centre £77,835.

Rastafarian Universal Zion £25,000.

Black Trade Unionist Solidarity Movement £13,237.

Southwark Black Workers Group £30,430.

Cultural Organisation for Black Radical Achievement £43,337.

The list goes on and on, but its not only London that hands out the money. Up and down the country local authorities are giving grants right left and centre to immigrant communities. Only last month in Coventry the local council announced plans for an Asian/Indian Community Centre at a cost of a massive £237,000 courtesy of the ratepayers.

SPECIAL RIGHTS

When Mr. Charles Edwards, a West Indian, was refused a job with Westminster City Council as a dustman because of his poor work record, he went straight to the Commission for Racial Equality who took his case to court. The judge presiding decreed that both Westminster City Council and the local trade union were guilty of racial discrimination and that Edwards had not got the job because of his colour.

One Pramjit Singh Hothi, a

Sikh, was refused membership of the Wrekin Golf Club in Telford because he "adopted a very aggressive attitude at his interview". However, again the Commission for Racial Equality took up his case and the refusal of Hothi's application was found, by the court, to be racial discrimination. The judge not only told the Sikh to apply again to the club but also awarded him £150 in damages and costs.

SPECIAL LAWS

Everyone in Britain riding a motor-cycle must wear a crash helmet, unless of course you're a sikh, then the law doesn't apply to you. This scandalous example of privilege for the few was never accepted by one brave Briton, Mr. Fred Hill of Uxbridge. He believed that what was good for the Sikhs was fine for him and he refused to wear a crash helmet. The authorities jailed him 31 times for failing to comply with the law. Last month Fred Hill died, in prison, at the age of 74. His courage and dedication is an example to us all.

While ordinary British schoolchildren at many schools must wear school uniforms, Asian pupils are allowed to attend wearing saris and baggy trousers. If the headteacher dares to complain he or she faces being taken to court by the... yes, you've guessed it... Commission for Racial Equality.

Sikh schoolchildren are allowed to wear turbans and religious daggers to school. British schoolchildren are sent before the headteacher for carrying a pen-knife.

The passing of the Race Relations Acts means that newspapers are not allowed to publish details of crimes committed by coloured immigrants in a way that is likely to emphasise the racial nature of the crimes. *National Front News* in the past had been heavily fined for detailing black crime in a column called 'Nightmare File'.

Many daily newspapers deliberately withhold the descriptions of black assailants in order to keep the facts of black crime from the public and the Police each year are reluctant to reveal the extent of black crime in Britain's inner-cities.

envisage that such enterprises would either be family-owned concerns or workers' co-operatives. We would assist the enlargement of such bodies as the Council for Small Industries in Rural Areas and co-operative advisory bodies. We would also provide assistance to those anxious to develop experimental projects such as fish-farming and deer-ranching."

The Privileged Class. To join their set you have got to have a black or brown face.

SPECIAL JOBS

Derbyshire Police accepted ten coloured teenagers to train as policemen despite not being up to the educational standards required.

Alfred Parrish, the Chief Constable admitted that the coloured recruits had been accepted over the heads of far superior white applicants in the interests of good community relations.

SPECIAL UNIONS

The Inner London Education Authority is appointing more black governors for schools to make sure that more blacks are involved in decision making, reports the *Daily Mail* of February 27th. The same paper a week later disclosed plans, supported by the GLC, for an all black trade union which could negotiate with management for special privileges specifically for its black members.

A Government grant of £33,000 has been given to a group of

West Indians to look into the possibilities of setting up a special black bank. A bank that will fund black business and give loans to black people.

The perks for this privileged class of people are endless. Everyday you can pick up the paper and read about the latest special treatment they have received.

The National Front is opposed to any class system, be it upper, middle or working. If people are to be judged or graded they should be judged or graded on their worth to Britain and the contribution they make to the country.

With over 3 million unemployed and Government cuts hitting the sick, the old and the young, we haven't the time or the money to waste on supporting a privileged class of coloured immigrants. The British people must call upon the Government and their local authorities to stop the pampering of ethnic minorities, and demand, at the earliest opportunity, that all coloured immigrants be returned to their own countries.

The National Front is at the forefront of this campaign.

SHEFFIELD MARCH

ON Saturday 3rd March about 150 National Front members led by the London Drum Corps and a large flag party marched through the busy Hillsborough shopping centre in Sheffield.

This regional march, organised by the Yorkshire NF, was in protest at a march by the so-called "Irish Freedom Movement" — a pro-IRA group. Members assembled outside Sheffield station and were transported in convoys to the assembly point for the march.

DONCASTER GROUP

Besides members from Sheffield and Leeds we were pleased to welcome members from the newly formed Doncaster Group. The route took the march through residential areas, where the sound of the drums and the sight of the banners and flags brought out many local residents, before we marched through the busy Hillsborough shopping centre.

The rally at the end of the march was chaired by Eric Steer, the very active Sheffield Organiser, and speakers included

Graham Williamson, the Blackpool Organiser; Ian Anderson, NF Deputy Chairman and Andrew Brons, the Chairman of the National Front.

This successful activity has given the Sheffield Group a boost which they are following up with an increased level of general activity and which should lead to the rapid expansion of this unit of the party.

A credit to the National Front at Sheffield was the London Drum Corps. Michael Turner (second left) has spent a lot of time, effort and money in setting up the drum corps. Why not show your appreciation by sending a donation to:— London Drum Corps, c/o 50, Pawsons Road, Croydon, Surrey CRO 2QF.

'THE SUN' WHIPS UP FOOTBALL VIOLENCE!

FIFTEEN English soccer fans needed hospital treatment after the so-called 'friendly' international match between England and France in Paris.

Most of those injured had been beaten up by baton-wielding police, and had head wounds. One Englishman, in his twenties, was in intensive care after being stabbed three times in the back. A doctor said that one of his wounds was very close to a kidney.

Without any doubt at all, that England supporter would not have been stabbed and the violence would not have been anywhere as serious if newspapers like *The Sun* hadn't whipped up a vicious hate campaign against the French in the weeks leading up to the match.

Many of Britain's national newspapers had joined in the 'hate the French' campaign, but *The Sun* was undoubtedly the worst. It launched an anti-French campaign under the title of 'Hop Off You Frogs' and it even printed a whole page of anti-French jokes.

BLAMED

On top of this *The Sun* produced special 'Hop Off You Frogs' badges and tee shirts. Many of these badges and tee shirts were worn by English soccer fans in Paris, which shows how effective *The Sun's* campaign was in causing the violence in France.

Not surprisingly though, nobody blamed *The Sun* for the horrifying violence. As usual everybody blamed the National Front for causing the trouble even though there was no evidence to back up their claims.

Labour MPs claimed that the violence had been deliberately whipped up by supporters of the National Front. They were said to be "particularly concerned" about the role of the National Front in fomenting violence among the England supporters. Mr John Cunningham, Labour

An English soccer fan. Victim of the baton-wielding French police.

spokesman on sport, asked: "Is it true that the National Front was behind much of the ugly violence that we witnessed and that they deliberately organised for months to attend this game in force?"

It is hard to believe that MPs like Cunningham really believe that the National Front has nothing better to do than to organise football violence. It is obvious that he only used the violence in France as yet another excuse to spread outright lies about the NF.

Replying to claims that the NF was involved in the trouble in France, Ian Anderson, the Front's Deputy Chairman, told the *Daily*

Telegraph that "the suggestion that the National Front was involved in the violence is just ridiculous. To say we organised it is insane. But, as usual, the NF is being used as a scapegoat."

But while the National Front was acting as a scapegoat, the real culprit managed to escape the blame. *The Sun* didn't only deny its own involvement in whipping up the violence, it even had the audacity to publish a poisonous article putting all the blame on the shoulders of the NF!

STIRRING UP

The National Front wants to know why *The Sun* can get away with smearing the name of the NF when *The Sun* was itself responsible for stirring up the horrific violence in Paris. Furthermore, the National Front wants to know why *The Sun* can get away with "stirring up racial hatred" against the French without being prosecuted under the infamous Race Relations Act.

Considering that *The Sun* has a readership of millions while papers like *National Front News* and *Bulldog* only have a readership of thousands, why can *The Sun* break the Race Act whenever it wants while *NF News* and *Bulldog* have both been prosecuted under this Act in the past?

In the multi-racial Britain of today, it would appear that there is one law for the rich newspaper editors in Fleet Street and another law for the ordinary British people.

SOCCKER RIOTS 'LED BY FRONT'S THUGS

... and *The Sun* has the cheek to blame it on the National Front.

More ANTI-CRUISE, ANTI-CND Demos

THE BIRMINGHAM Branch Instant Response Group supported Kidderminster NF when it was decided to oppose a CND march from Kidderminster to Bewdley on February 25th.

More than a dozen NF members handed out leaflets and sold copies of *National Front News* to the local public. Several placards were displayed with slogans of, "No to Cruise, No to CND, Yes to Nuclear Neutrality." After an hour's stay in Kidderminster shopping centre and a good chant at the

National Front News being sold outside Kidderminster Library.

C.N.D. rabble, the Instant Response Group went by a small convoy of cars to Bewdley. Arriving well ahead of the march our sellers and leafletters positioned themselves outside Bewdley Town Hall where there was a so-called "peace exhibition" taking place.

RULE BRITANNIA

When the march arrived in Bewdley the NF took verbal action and the peace people could only gaze when 'Rule Britannia' was sung by an outnumbered group of Nationalists.

It was an extremely enjoyable day out and all who attended were pleased with the result. The object of the exercise was to show the local people of Kidderminster and Bewdley that C.N.D. are not the only people with ideas on the nuclear debate and this exercise was proved.

CREDIT

It must be said that the local police in Kidderminster and in Bewdley were a credit to democracy on the 25th February 1984. Totally

out of character with the police operations on other recent NF demonstrations the police never once intervened to try and halt our actions and their visible presence was very low. As a result of this police action the day went off peacefully and the local people were able to see and hear two points of view. Other police chiefs should take note.

At Bewdley Town Hall the CND marchers were met by a National Front picket.

White Pride

THERE IS a lot of talk these days about Black pride and Jewish pride — even 'gay' pride. In fact, there is only one major section of the world's population which is not encouraged to take pride in its heritage and in the achievements of its ancestors. That group is the White race.

The lack of White pride is a sad and strange thing, because no group has more to be rightfully proud of than the White people of the world. The glories and greatness that the men and women of our Race have won over the centuries should serve as a source of eternal pride and inspiration to White people everywhere.

A MIGHTY RACE

Since the dawn of history, we have been a mighty race of builders, explorers, artists, warriors, inventors, philosophers and cultivators.

We have sailed the seas, tamed vast wildernesses, scaled towering mountains and journeyed to the depths of the ocean and into the cold void of outer space. We have built great civilizations, created breathtaking works of beauty and made the deserts bloom.

The technological achievements of our people, from the ancient building of Stonehenge to the moon-walk of the Apollo astronauts, are unequalled.

We have devised mighty philosophies, conquered deadly diseases and performed soul-stirring acts of heroism and self-sacrifice.

SONS AND DAUGHTERS

We are the Race of Shakespeare, Leonardo da Vinci, Beethoven and Homer. We are the sons and daughters of Leif Ericson, Christopher Columbus, Sir Francis Drake and Magellan. We are the folk of Alexander, Caesar, Edward I, and Napoleon. We are the descendants of Pythagoras, Galileo, Newton and Darwin.

Just to list the great accomplishments of the White race would require a lifetime's work.

No one has more to be proud of than we have!

In order for an individual to be psychologically healthy, he or she must have a clear-cut sense of identity and self-worth. And for our Race as a whole to be strong and healthy, White people everywhere must develop a sense of racial identity and racial pride. There is no better way to attain this very necessary level of racial awareness than in having pride in your people and their accomplishments.

So take pride in your Race — pride in what we have achieved in days gone by, and pride in what we will yet accomplish.

Be White and proud!

White Unity

Britons unite with the National Front!

White Power

- * Britain for the British. Whites first in housing and jobs.
- * Ban foreign imports. Smash the Stock Exchange. Nationalise the Banks!
- * Fight for real jobs & wages. No Tory Slave Labour!
- * Smash Capitalism & Communism. Fight for White Workers Power!
- * Hang IRA Reds!
- * Stop all overseas aid. Build homes and hospitals for our own people.
- * Yanks go home. Oppose CND Reds.
